Summary

Computer Science graduate (B.S. Computing, First Class Honours, GPA 3.77) from the University of Technology, Jamaica, with a strong foundation in Java, Python, SQL, object-oriented design, and data structures and algorithms. Experienced in building database-backed applications from requirements through documentation. Seeking a Software Engineering Internship to contribute to production code and grow as a backend/full-stack engineer.

Education

University of Technology, Jamaica Kingston, Jamaica
B.S. in Computing, Computer Science Major — First Class Honours Awarded July 2026
• GPA: 3.77; Dean's List (2021–2022)

Technical Skills

Languages: Java, Python, C/C++, SQL, Prolog, HTML5, CSS3
Databases & Tools: SQLite, Git, GitHub, VS Code
Concepts: Object-Oriented Programming, Data Structures & Algorithms, REST APIs, Software Documentation

Projects

Academic Probation Alert System Python, SQLite, Prolog
• Built a desktop application with role-based Student and Admin logins that calculates student GPAs and generates academic probation reports.
• Designed a SQLite database to store student, course, and grade records, and implemented the GPA calculation logic in Python.
• Encoded university probation policies as Prolog rules, separating policy logic from application code so rules can change without rewriting the app.
• Wrote project documentation and maintained the codebase in a public GitHub repository.

Work Experience

Lifeguard, American Pools Philadelphia, PA | Summer 2023
• Enforced safety policies for 25–50 swimmers per shift and provided CPR/First Aid response.
• Collaborated in a 6-person team, coordinating rotations and communicating clearly in high-pressure situations.

Leadership & Activities

Executive Assistant, UTech Youth Empowerment Society UTech, Jamaica
• Coordinated service projects with 15+ volunteers, handling planning, scheduling, and communication.
